Would fap again. i waited months for the new VN!! so worth it. The story needs a lot more work, sure the art is nice, but without a good story it's just not a good visual novel. If you're more so in it for porn or ecchi then it's great for you I suppose, but personally I buy visual novels for a good story, and this one is extremely lack luster (way over priced seeing I have 2 endings and have played an hour, and I'm a fairly slow reader, so it says a lot about how short the game is. seeing there are 5 endings it will be extremely repetitive).. Nice amount of fapping material.. Bought this game for 15% off, with the Patch ofcourse To start things, story is kinda linear, choices you make just changes the girl you choose Aiko best grill some paths is just dialogues nonsense, Spent about a hour or so to get the achievements with some skipping here and there The nudity overall is meh, Harem ending is good tho Overall considering its Dharker Studios what do you expect I reccommend you buying it on sale better than 15% For me Its an improvement on the previous titles Rate: 6/10 (Had to afk the game beacause of the issue in card drops). While i enjoyed the original beach bounce then the remastered came and it felt butchered. Now this is part 2 of the series and it just felt lackluster. its like they were just trying to rush it out. it had a story at the start then bam its done just like that. i can't even recommend this at full price.. I fapped myself to 100% acheivs and all hidden galleries. I used to fap for no reason, now all those years of fapping is finally paying off. 10/10 Would fap my way to acheivments again.. Too short, only dialouge through the entire game.
